A POINTS OF LIGHT ENTERPRISE

Project Name: **Caring Cards**

In light of recent events in Paris and other parts of the world, it is important for young people to turn their caring and empathy into compassionate acts. One way to do this is through letting kids who have experienced difficult times know that other kids and teens care about and are thinking of them. Our Points of Light affiliate, Tout Benev, is willing to receive "caring cards" and distribute them to children in France.

Issue area: Peace and Kindness

Budget: \$0

What You Need:

- Paper
- Crayons
- Envelope
- Postage Stamp
- Pen

Project Instructions:

1. Fold your piece of paper in half.
2. Decorate the front of your card with hopeful and caring pictures such as hearts and rainbows.
3. Place it on a table so that it opens like a book.
4. Open your card and write a caring message on the inside. Say nice things like "From a kid who cares." Don't say things like, "I'm sorry something bad happened to you." Don't put your name on the card.
5. Mail the card(s) to the address below and make someone's day better by showing them that you care!
